

November 18, 2006

Dear Neighbor:

I am very pleased to announce that Energy Rising Massage Therapy has come to the community of Bennington, Vermont! I look forward to meeting everyone and doing some good in the place where I live.

I started Energy Rising because I believe that people want therapeutic work in a non-clinical atmosphere. This is what I provide. The old choice between spa and doctor's office is no more. We can bring you relief from muscular tension and make it an enjoyable experience.

Swedish massage -- sometimes referred to as the "Swedish movement cure" -- can create balance in your life. My specialties include deep tissue, Thai stretching, sports and the popular hot stone massage. For reconnecting with the earth and feeling a sense of warmth as well as timelessness, there's nothing better than hot stones.

Here's a short list of what I treat:

- Headaches
- Fatigue
- Neck/Back Pain
- Insomnia
- Muscle Spasm
- Limited Range of Motion
- Stress/Anxiety

I encourage you to be proactive and take that next step toward better health this year. Can you believe it's almost 2007! It's a great milestone and a year that could be a turning point for you.

Wishing you wellness,

Todd Fiorentino
Massage Therapist

p.s. Chair massage available for your company; and gift certificates for the holiday season or birthdays.
